

Angus Council

Why we are engaging with Angus Council (Angus)

We are engaging with Angus about its **services for people who are homeless**.

To assess the risks to people who are homeless we have reviewed and compared the data for all councils from the Scottish Government's 2017/18 national homelessness statistics and the Annual Returns on the Charter. From this we identified areas where we require further information from Angus:

- Angus's assessment of homelessness applications:
 - the percentage it assessed as neither homeless or threatened with homeless is above the Scottish average,
 - the percentage it assessed as intentionally homeless is above the Scottish average,
 - the percentage Angus assessed within 28 days is below the Scottish average; and
- outcomes for people who are homeless: the number of people of people waiting more than one year for an outcome is above the Scottish average.

What Angus must do

Angus must provide us with the information we require in relation to its homelessness service.

What we will do

We will:

- review the information we require from Angus and determine what more we may require it to do; and
- review our engagement with Angus when it has finalised its Rapid Rehousing Transition Plan.

Regulatory returns

Angus must provide us with the following annual regulatory returns:

- Annual Assurance Statement;
- Annual Return on the Charter; and
- the return on the Energy Efficiency Standard for Social Housing.

It should also notify us of any material changes to its Annual Assurance Statement and any tenant and resident safety matter which has been reported to or is being investigated by the Health and Safety Executive or reports from regulatory or statutory authorities or insurance providers, relating to safety concerns.
