Equality & Human Rights Provisions

The council is working towards having appropriate systems and practice in place for the collection and the use of equalities data to inform decision making, policy making, and day to day service delivery. The council provides a diverse range of services to people throughout West Lothian, and the council wants to ensure everyone has the same opportunity to access services and that the services provided meet the needs and value the diversity of all our customers.

This approach to equalities has been developed in accordance with the principles of the council's 'Policy for Equality in Service Provision' and commitments within the accompanying action plan, performance reporting and EQIA conducted on key policy developments.

Housing, Customer and Building Services have a remit and commitment to the collation of key equality and personal data from our customers and service users in order that our strategies and future planning is based on the reality of customers circumstances and lived experiences.

We confirm that we have seen and considered sufficient evidence to give us this assurance.

The council's Annual Assurance Statement was approved at the meeting of our Council Executive on 25 October 2022.
